

Dear Parent,

Your child has been given a list with **20 skills to practice** on IXL this summer. Please help them keep track of their progress by **filling out the assignment tracker** each time they practice. Your child has the freedom to work at his or her own pace, but it is recommended that they practice for **at least 10 minutes each day**.

To get your child started on your home computer, please follow these easy steps:

Log in to IXL: <https://www.ixl.com/signin/sibss> then enter the child's username and password.

Once logged in, please go to "Profile and Settings" under your child's name and update the email address. The email address can be used to retrieve lost passwords and receive updates about the student's progress.

The progress of a skill can be seen on the main page of each grade level represented by a number in parentheses. Points will be awarded for each skill based on the following progress scale:

100 – 85 5 points

84 – 70 4 points

69 – 50 3 points

49 – 30 2 points

29 – 10 1 point

(20 skills @ 5 points possible = 100 Points possible)

Skills: 5th grade IXL

C.16 Multiply 2-digit numbers by larger numbers

D.14 Divide 2-digit and 3-digit numbers by 2-digit numbers

G.4 Place values in decimal numbers

G.15 Convert fractions to decimals

G.25 Put a mix of decimals, fractions, and mixed numbers in order

I.14 Multiply two decimals: where does the decimal point go?

J.6 Division with decimals quotients

K.4 Equivalent fractions

K.5 Write fractions in lowest terms

L.3 Add and subtract fractions with like denominators

L.8 Add fractions with unlike denominators

S.2 Compare patterns

U.1 Write variable expressions

U.3 Evaluate variable expressions

V.1 Read a table

V.2 Interpret line graphs

X.1 Covert time units

X.4 Elapsed time

Y.2 Compare and convert customary units of length

Z.6 Types of angles

I hope you will encourage your son or daughter to use IXL regularly this summer and I look forward to seeing you in the fall!

Sincerely,

Ms. Calabrese
