

Dear Parent,

Your child has been given an **optional list with 25 skills** to practice on IXL this summer. These skills are a review of some of the concepts that the students learned in first grade. Your child can complete any of these skills over the summer, in addition to the math packet. These are **not required to complete**, but it is great for extra math skills practice.

To get your child started on your home computer, please follow these easy steps:

Login to IXL: <https://www.ixl.com/signin/sjbss> then enter the child's username and password.

The progress of a skill can be seen on the main page of each grade level represented by a number in parentheses.

Optional Skills to practice on IXL this summer:

1st Grade IXL

1. **A. 9.** Skip counting by twos, fives, and tens
